

Single-Use Cleanroom Assembly

Sentinel Process Systems, Inc. designs and fabricates a wide range of single-use assemblies produced in our state-of-the-art, ISO 7 certified cleanroom.

Sentinel has decades of experience servicing the Pharmaceutical and Biotechnology industries. Our technical staff understand the challenges faced by our customers and can help optimize their processes and operations. From R&D to full-scale production, we provide solutions for single-use tube sets, bag and bottle assemblies as well as bulk tubing and aseptic process connectors.

- Quality Management System complies with ISO 9001:2015
- Cleanroom certified to ISO Class 7
- Gamma irradiation services provided
- Short lead times and on-time deliveries
- Full lot traceability for all critical materials
- Managed stocking programs at no cost

Single-Use Cleanroom Assembly

Sentinel helps in developing custom assembly designs with a strong commitment to value engineering. We can fabricate and inventory custom, pre-assembled and gamma irradiated single-use systems that are packaged and ready to use. Our extensive supply chain management systems enable us to provide consistent, best-in-class assemblies with short lead times.

Tube Set Assemblies

Customized, Preassembled Silicone and TPE Tubing

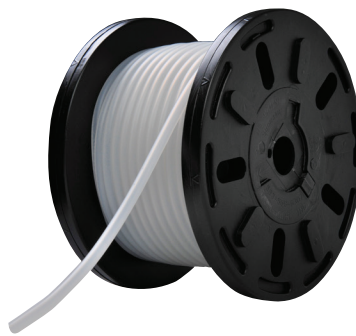

Aseptic Connectors

QC's, Adapters, Reducers, TC

Media Bottles & Carboys

60ml to 40L

Bulk Tubing

Silicone, TPE, Braided Reinforced, Pump
