

Delivering Innovative Process Technologies

Process Component Technologies

Sentinel Process Systems, Inc. proudly provides engineered, bioprocess components and assemblies from a wide variety of market leading manufacturers. We also offer custom-designed process hoses and single-use assemblies produced and stocked in our 10,000+ square foot warehouse and fabrication facilities.

Process Component Technologies

DIAPHRAGM VALVES

- Sanitary Diaphragm Valves
- Multiport Block Valves

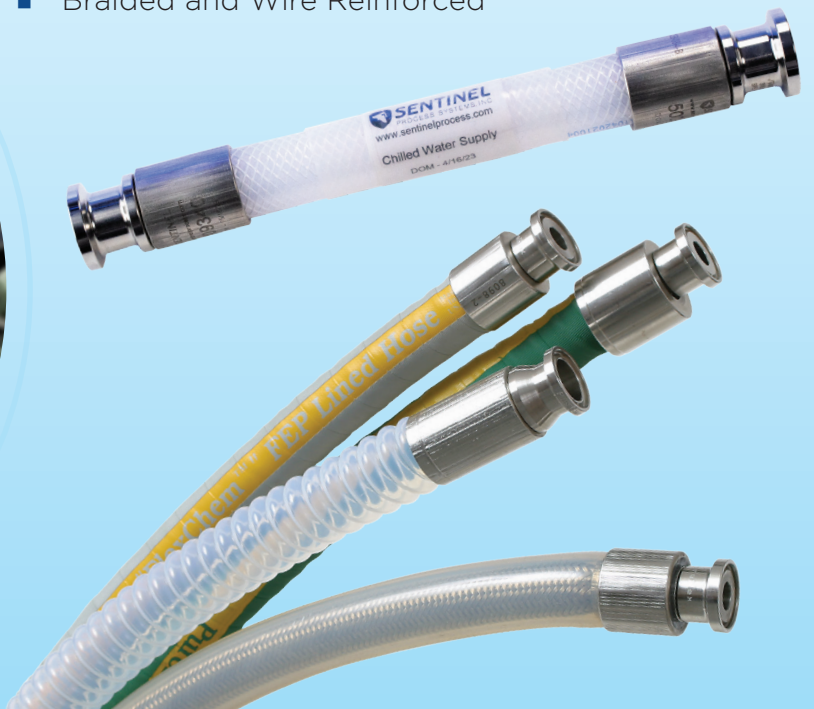

PROCESS & SAMPLING VALVES

- Ball, Bleed, Sampling and Check Valves

PROCESS HOSE FABRICATION

- Silicone, PTFE, FEP, EPDM, PVC Hoses
- Braided and Wire Reinforced

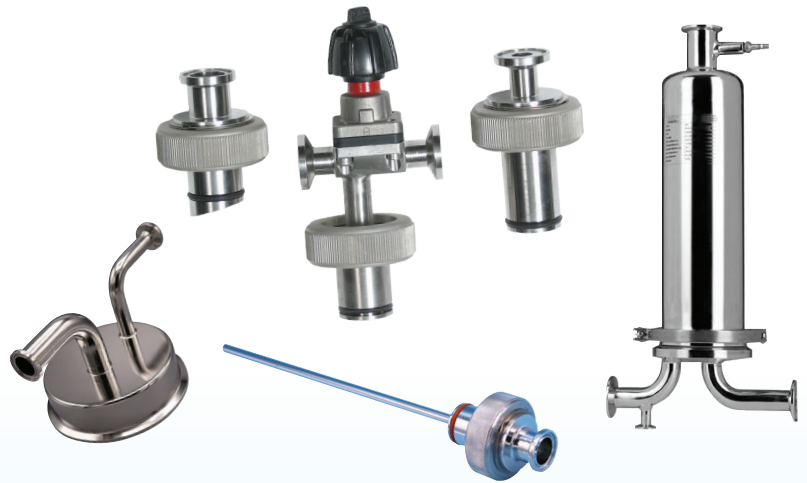

FILTRATION

- Capsule and Cartridge Filters
- Stainless Steel Filter Housings

CUSTOM FITTINGS & FABRICATIONS

- Machined, Welded or Polished

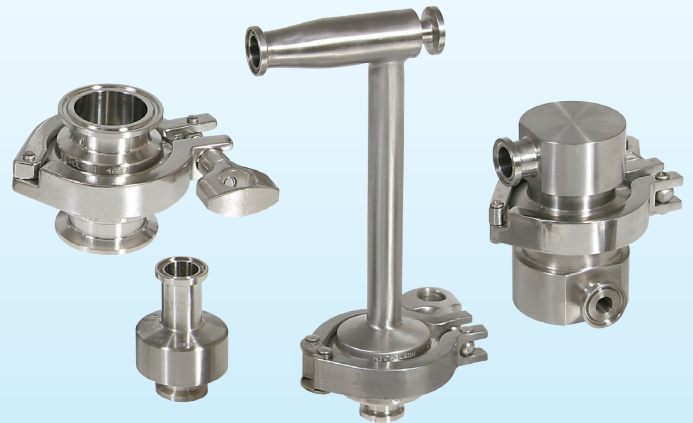

PROCESS INSTRUMENTATION

- Pressure, Temperature, Level and Flow Measurement

CLEAN STEAM PRODUCTS

- Thermostatic Steam Traps

FLUID PASS THRU

- Single or Multiport

PROCESS SEALING TECHNOLOGIES

- Sanitary Gaskets, Process O-Rings

Process Component Technologies

CUSTOM STAINLESS STEEL FURNISHINGS

- Tables, Benches, Podiums, Shelves, Carts, Dispensers

HOSE RACK & CARTS

- Wall Mount and Mobile

PROCESS ANALYTICS

- Process Analytics Sensors: pH/ORP, Dissolved Oxygen, CO₂, Conductivity
